The Animal and Veterinary Sciences Conference is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Animal and Veterinary Sciences. Participants are invited to explore the full spectrum of latest trends and innovations in this ever increasingly important field of science. The multidisciplinary focus of this event aims to bring together distinguished presenters and attendees from different fields with expertise in various areas of Animal and Veterinary Sciences, providing an excellent opportunity to participate in an international exchange for addressing problems within Animal and Veterinary Sciences.

The program includes time allocated for networking, peer-to-peer discussions, and exploring the host city.

We invite the participation of leading academic scientists, researchers and scholars in the domain of interest from around the world to submit original research contributions relating to all aspects of:
